Cleveland and Williams may be the Democratic standard bearers.

Don't fail to attend the Fourth of July celebration here next Monday.

Next Monday is the glorious Fourth. Let our citizens celebrate the day as becometh good citizens.

The Florida Delegation left yesterday for St. Louis, to attend the National Democratic Convention, and take in the big fair.

It will not be long before the Gainesville schools will be opened for the next term, and then the city will be alive with promising school boys and girls.

And now the gamblers are betting on who the Democrats will nominate at St. Louis next week for President. We wish it could be so that every bet would be lost.

A local option campaign is being planned for Leon county. The tax payers of Leon could do no better thing than to drive out the liquor business and we believe they will be wise enough to do it.

The Lake City Index says, the University of Florida will never be a success as long as a few little fellows in Lake City are permitted to meddle in its affairs, and that reminds us that Gainesville would be a splendid place for that institution, anyway.

Several of Gainesville's conservative business men who voted a wet ticket here in June of last year have seen that they were then on the wrong side, and are honest enough to confess it. Others know they were wrong but are slow to confess it, but it is generally conceded that the town and county are dry to stay dry.

BROWARD AND DAVIS.

The New York Herald in speaking of the recent gubernatorial campaign in Florida says:

"Two of the candidates in the recent primary election for Governor of Florida, Robert W. Davis, now a Representative, and Napoleon B. Broward, who won fame by his filibustering exploits just prior to the Spanish-American war, made a house-to-house campaign through the rural districts of the State. One hot day Capt. Broward drove up to a peaceful farm house and found a woman strenuously chopping wood in the front yard."

"The gallant captain alighted, bowed to the woman and said: 'Madam, excuse me, but I cannot stand idly by and see a lady doing such hard work. Permit me,' and, taking the axe, the candidate labored for thirty minutes until the last stick had been cut."

"Now, madam," he said as he mopped the perspiration from his brow, 'if you have a husband you may tell him that Capt. Broward called to see him and that I would appreciate his vote for Governor of Florida.'

"The woman who had been admiring the candidate's ability as a woodchopper shook her head dubiously and replied:

"Well, I dunno, about his votin' for you, 'cause Bob Davis is in the back yard a milkin' the cow.'"

SHOOTING AND DEPORTING.

To the unprejudiced mind it would seem that the shooting of union miners by the military authorities in Colorado recently was, if not entirely unnecessary carried entirely too far.

If half that has appeared in the "Appeal to Reason" a paper published in Girard, Kansas, and much that has appeared in other papers are true, great injustice has been done the miners, and some body should be punished.

Not only have many of the miners been treated very roughly—even in an uncivilized manner—but if reports are true women and children have been treated outrageously, and in some instances the sanctity of the home has not been respected.

Such things should not be tolerated under our flag.

THE REAL THINGS.

According to the Tampa Daily Times Judge Whitaker, of the Tampa municipal court, is a real terror to evil doers. Last Tuesday morning he fined a negro woman \$100 and costs or ninety days, for cutting another negro with a razor. Another person was fined \$50 and costs or ninety days for fighting and carrying a concealed weapon. For drunk and disorderly conduct on a street car he fined a colored lady (?) \$25 and costs or thirty days, and on several other persons he imposed suitable fines for various offenses.

Tampa's municipal judge and Gainesville's mayor seem to be the real things. More such judicial officers would insure a very perceptible decrease in all manner of crimes.

The Herald, published at Mexico City, Mexico, says: The Providence Journal won't let its readers continue in the belief that Mr. Rockefeller is the richest man who ever lived in the world. Our Rhode Island contemporary mentions one Korah who robbed Joseph of a third of his fortune, which the latter had accumulated as Pharaoh's prime minister, and thus came into possession of \$3,000,000,000! Solomon had only \$500,000,000 according to a Jewish writer, but there were three enormously wealthy Jews in old Rome who were able to meet expenditures of \$100,000,000 a year for 21 years, one of them giving his daughter a dowry of \$425,000,000.

Mr. Alex. St. Clair-Abrams continues to charge fraud against the Broward people. Just as soon as Mr. Abrams succeeds in having the decision of the Democratic State Executive Committee reversed, and Mr. Davis declared the nominee for Governor, the STAR will move that Mr. Abrams be employed by the national democracy to reinstitute and vigorously push charges of fraud against the republicans who officiated in the Tilden-Hays affair.

We are inclined to the opinion that those Taylor county people whom some of the corporation papers, and Mr. Abrams, and others continue to accuse of fraud in the recent primaries are about as honest—and perhaps more so—as any of their accusers.

Surely it must both amuse and disgust Hon. N. P. Broward to read some of the courtier editorial paragraphs in some of the State papers which were accusing him of inciting negroes to riot, being made sheriff by negroes and white Republicans, and about everything else but something honorable, only a few weeks ago. If what some of the anti-Broward editors were saying about him before the last primary was true, then what they are saying about him today is false. We think the falsifying was done when they were abusing him, and the true things those former falsifiers are now saying in praise of the Governor-to-be are said because he triumphed over them.

Texas, Georgia and Florida have each recently furnished a case of "preacher in a fight," and if all that has been said in the newspapers about those three fights could be gotten together it would probably be enough to fill up several thousand newspaper pages. During the time these fights have been discussed thousands of fights have occurred between men who would be insulted if they should be considered inferior to preachers, and yet these fights go comparatively unnoticed. Let those who have so much to say about the occasional "preacher fight," remember that there are many preachers who have not fought.

Some of the papers which opposed Stockton, Broward and Barrs in the recent primaries are continuing to abuse Stockton and Barrs, but are beginning to say what a good, honest, level-headed gentleman Broward is. Had Stockton and Barrs been nominated, and Broward had been defeated these same papers would now be abusing Broward, and finding many nice things to say about Stockton and Barrs. They have a weakness for trying to "stand in" with the victors, and care but little what justice they do to the vanquished. Are such practices right? If so what is wrong?

As a result of the finding by the coroner's jury in the now famous General Slocum disaster many arrests of owners and officials of the ill-fated steamer have been made. What the outcome of the investigation will be no man can now tell, but it does seem that there must have been some criminal negligence somewhere, and if such was the case it should be located and proper punishment inflicted on the guilty parties.

The National Prohibition Party Convention is in session at Indianapolis, and it is thought by many that General Nelson A. Miles will receive the nomination for the presidency. There is some talk of nominating Sam Jones for vice-president, and it Miles and Jones should be nominated, and a vigorous campaign should be planned they will probably draw as large crowds to their speakings as will the other candidates.

Mr. Bryan is being accused of being determined to prevent the nomination of Judge Parker at all hazards. It is to be hoped that the great Nebraska will not carry his opposition to Parker beyond reason. If he can secure the nomination of Mr. Hearst there can be no harm in his doing so, but we are not yet prepared to believe that he is determined to rule or ruin, and we hope we shall not be disappointed in him.

The question is raised, and rather significantly, as we must think at this time, to whom does the Vatican and its priceless treasures really belong? Some hold that the Pope owns the great property, and others insist that it belongs to the Italian government. The pile of buildings comprising the Vatican was once the site of the garden of Nero, "Mexican" Herald, Mexico City, Mexico.

The STAR is in receipt of a handsome catalogue of the University of Florida, at Lake City, for 1903-1904, with announcements for 1904-1905, and also a beautiful booklet containing many pretty views to be examined in connection with the catalogue.

Only recently we had in one issue of the STAR five marriage notices, and today we publish six notices for divorce. 'Seems they're getting married nearly as fast as they're getting unmarried.

Delegates to the St. Louis convention next week should not think it necessary for them to "take a little for their stomach's sake."
